# Memory Care

*Ladysmith Care Community* is committed to our residents.

*Meadow* is a 16 bed household dedicated to offering memory care to individuals with various forms of dementia.

Our goal is to provide quality person centered dementia care. We have a meal plan that empowers residents to make choices that affect the quality of their lives.

## Staff

Meadow staff receive training on advanced Alzheimer's and related dementia. To promote better continuity of services the Meadow has implemented consistent assignment. This further enhances us to better serve each resident allowing to provide structure and routine based on individual choices. Our interdisciplinary team collectively and individually supports the mission of Meadow.

## Environment

Meadow is a self contained household. Meals and most cares and services are provided in the household to allow residents to follow their own schedules rather than the staffs. We offer an environment created to reflect each individuals personality

and background. Families are encouraged to individualize residents personal space.

Meadow household is not a locked unit. However the household doors are secured and will alarm on exit.

## Life Enrichment

Our Meadow team works to identify each individuals level of memory loss. Our goal is to provide activities that promote each individuals interest and provide core psychological needs of each resident.
